Reading, writing, guessing words

(Example is from Lesson 9. For use with other lessons, the teacher can adapt PPT file by modifying his/her selection of vocabulary, and create new clues).

Instructions:

Equipment: White board, colored markers, computer connected to project PPT file on white board.

1. Teacher projects PowerPoint Scoreboard slide on white board, draws "machberet chachama" lines on a blank part of the whiteboard.
2. Divide the class into 2 teams.
3. Team whose turn it is has a student call out 100, 200, or 300, which refers to easier or harder clues.
4. Teacher clicks on choice, linked to clue. Clue displays on board.
5. Student from team is elected to come to board to write the word on a "machberet chachama" line.
6. The team can help, or call out, to correct error in spelling.
7. Points are tallied.
8. Teacher clicks on the clue slide, to return to the first scoreboard slide.

List of answer words for Lesson 9:

trap, crab, red, Arab
crib, rat, rip, print
rind, pretend, there/their, ran

See attached PowerPoint file.
